

THE KENTUCKY PREVENTION NETWORK - AN EXCITING OPPORTUNITY!

The Kentucky Prevention Network (KPN) is about people working together to reduce and ultimately eliminate substance abuse in Kentucky. No individual or single group can do this alone, but by working together we can achieve many victories.

KPN will support quality substance abuse prevention efforts through training and education for all members. Network members will learn about prevention efforts taking place in communities throughout the state and the many strategies that can be used to effect change in their community. Quarterly meetings will allow for sharing and development of new ideas, mentoring, and meeting like-minded people from across the Commonwealth.

*Coming together is a beginning.
Keeping together is progress.
Working together is success.*

Henry Ford

Membership is open to any Kentucky resident who is interested in preventing substance abuse. Whether you are a prevention professional, community coalition member, volunteer, or just someone with a personal interest in substance abuse prevention, you are welcome to join KPN.

Working Together for a Drug-Free Kentucky

If you are interested in alcohol, tobacco and other drug prevention in Kentucky and want to be a part of the Kentucky Prevention Network, please complete the following information. Mail with a check for annual dues of \$25, to:

Kentucky Prevention Network
c/o Adanta Regional Prevention Center
259 Parkers Mill Road
Somerset, KY 42501
